

Galapagos is a mid-size biotechnology company specialized in the discovery and development of small molecule and antibody therapies with novel modes-of-action. The Company is progressing one of the largest pipelines in biotech, with four clinical and over 50 small molecule discovery/pre-clinical programs. Galapagos has established risk/reward sharing alliances with large pharma companies such as GlaxoSmithKline, Lilly, Janssen Pharmaceutica, Merck & Co. and Roche in specific disease areas. Together with our BioFocus and Argenta service operations, Galapagos' research activities in five European countries and the US are successful thanks to our highly motivated staff of more than 670 employees, a unique technology base and a strong financial position.

For our site in Romainville, we are looking for a:

**TECHNICIAN BIOANALYSIS / DMPK**  
(M/F – Temporary 12 months – RMV039)

**Job description**

You will join an experienced team that is dedicated to bring bioanalytical support to research projects in bone and joint diseases...

- Development/validation of bioanalytical methods (from sample preparation to data reporting)
- Basic maintenance of LC/MS systems
- Basic metabolic profiling

**Profile**

Degree in chemistry (DUT/BTS, Licence Pro), flexible, motivated, independent. At least two years in a pharmaceutical research laboratory or CRO, knowledge in analytical chemistry, especially in LC/MS is a plus.

At Galapagos we aim to recruit the best people, who stand out among their peers, with integrity and excellent interpersonal and organizational skills. Our employees are the strength behind Galapagos, a highly motivated team, eager to maintain Galapagos' leading position and achieve breakthroughs in pharmaceutical research. Galapagos offers a competitive remuneration package and a dynamic work environment.

Do you have the qualifications for this job opening and are up to the challenge of joining our entrepreneurial team? If so, please send your application (preferably by e-mail) to:
