

Galapagos is a drug discovery and development company with small molecule programs in bone and joint diseases, bone metastasis, cachexia, anti-infectives and metabolic diseases. We have established risk sharing alliances with GlaxoSmithKline, Janssen Pharmaceutica, Eli Lilly and Merck and Co. Through an alliance with MorphoSys, we are also developing new antibody therapies in bone and joint diseases. Our BioFocus division offers a full suite of target-to-drug discovery products and services to pharmaceutical and biotech companies and to patient foundations, encompassing target discovery and validation, screening and drug discovery through to delivery of pre-clinical candidates. Our research activities in five European countries and the US are successful thanks to our highly motivated staff of almost 500 employees, a unique technology base and a strong financial position.

For our site in Mechelen we are looking for a

Scientist Cellular Pharmacology (m/f full time) Mec-071

Description

You will be part of a team that develops target-specific cellular assays for screening and pharmacological characterization of small synthetic molecules from our drug discovery programs.

Profile

You have a Bachelor or Master Degree (Biology, biochemistry, pharmacy or equivalent) or equivalent through experience. You work accurately and precisely. Expertise in mammalian cell culture techniques is essential as well as a good practical knowledge in the fields of pharmacology. Experience in working in an industrial setting would be an advantage. You have good organizational, administrative and communication skills. You work effectively in a team environment and you are fluent in English.

At Galapagos and BioFocus we aim to recruit the best people, who stand out among their peers, with integrity and excellent interpersonal and organizational skills. Our employees are the strength behind Galapagos, a highly motivated team, eager to maintain Galapagos' leading position and achieve breakthroughs in pharmaceutical research. Galapagos offers a competitive remuneration package and a dynamic work environment.

Do you have the qualifications for this job opening and are up to the challenge of joining our entrepreneurial team? If so, please send your application (preferably by e-mail) to:
